1. Product Introduction

In the digital era, a compact flash drive is like a key to the digital world. By gently inserting it into a computer, countless beautiful memories can be opened up. Apacer introduces the AH132, the ultra-mini flash drive "Digital Key." Having a finely crafted look, the key-shaped flash drive allows you to easily attach it to your key ring. What's more, the center of the unit features a unique groove that fits your thumb finger for improved hand grip. AH132 comes in three colors and capacity choices: "twilight yellow" (4GB), "dawn blue" (8GB) and "scorching-sun red" (16GB). Among a great variety of flash drives available in the market, AH132 offer options that are compact, stylish yet ergonomic.

AH132, the ultra-mini flash drive "Digital Key," provides the intimate feeling, like a "handy little thing." The body of the trend-setting slim AH132 is trimmed with inclined planes, creating a visual sense of compactness. On top of that, a central groove is designed to fit your thumb finger, guiding the angle of hand gripping and posture. This ergonomic feature makes the flash drive easier to plug and unplug. AH132 further adopts a unique dual-piece design, with a blend of two dynamic colors to add more variety. In addition, the built-in grommet means you can freely attach straps or chains to show your personal style!

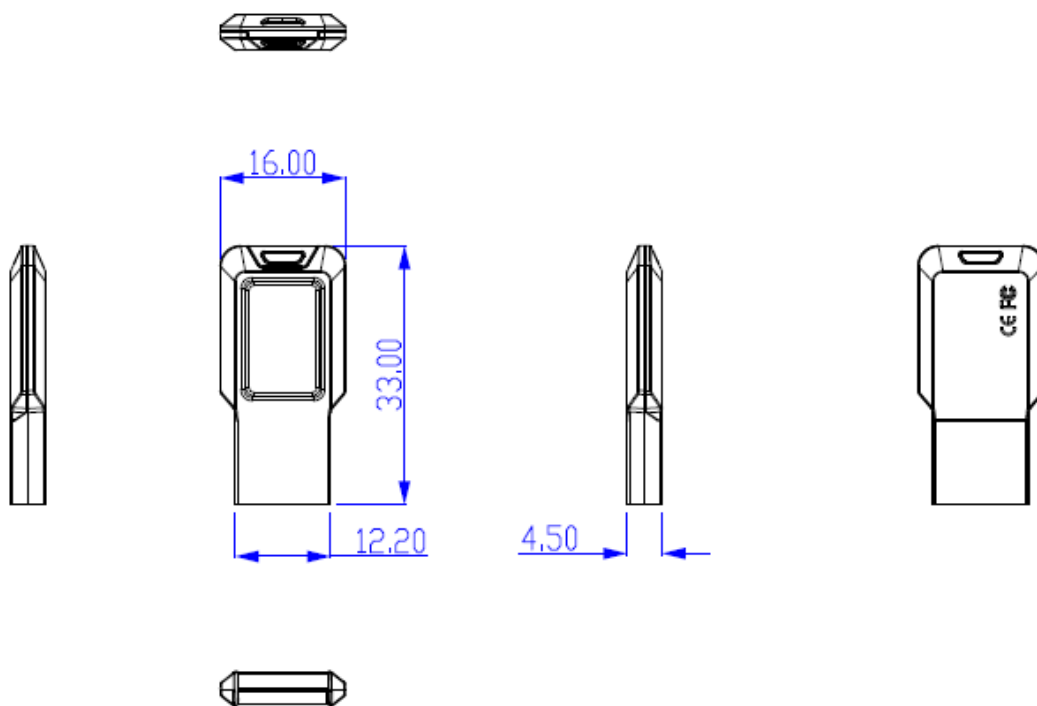

2. Features

- High-speed USB 2.0 certified, backwards compatible with USB 1.1
- USB powered. No external power required
- Easy plug & play
- Ultra compact and slim
- Unique Thumb Grove Design for Improved Hand Grip
- RoHS compliant

3. Specifications
